## 2020 PRODUCT CATALOGUE

POD-02/2020

Wade YOUNG
EXTREME ENDURO

Be it a treatment or prevention, POD Active specialises in joint protection for elite athletes and ***active humans***.

Designed for broad appeal across ages and genders, plus for work & play, **POD** is leading the way in joint protection products around natural ***human motion®***.

## *PREMIUM PROTECTION*
# FOR ACTIVE HUMANS

pod®

Inspired by the human body, our patented ***human motion***® technology uses the power of ***Synthetic Ligaments™*** engineered from ***Vectran Fibres™*** (5X stronger than steel) to provide progressive, multidirectional motion control.

The New POD Hinge Housing provides a smooth contact surface against your knee, avoiding abrasion and delivering new levels of comfort, performance & reliability.

## *NEXT-GEN*
# *HUMAN MOTION® SYSTEM*

pod®

The K-Series Knee Braces are at home in dirt, water or snow. Our CE certified impact guards are easily removeable to convert the brace for multi-sport use.

Unlike traditional medical braces, produced with mechanical metal hinges, POD's anti corrosive materials make them ideal for Water Sports, Alpine Sports, Mountain Biking, plus Team & Action Sports.

## SETTING NEW STANDARDS

**The New Medically Certified K8 brace delivers superior industry leading carbon strength, maximum comfort, reliability and performance.**

### FORGED CARBON FRAME
**Unbreakable strength for optimal load transfer. Industry leading 5 year Warranty.**

### IMPROVED KNEE PROTECTION
**CE Certified Full Coverage Guards protect against impacts, handlebar strikes, plus enhance comfort when kneeling.**

### ADAPTIVE CUFFS
**Accommodate muscle motion and conform to various leg shapes, while reducing the risk of skeletal fractures.**

### NEW HUMAN MOTION® HINGE
**Patented Synthetic Ligament™ moves so naturally it feels invisible.**
**20° - 5° Extension Control Insert optional.**

### QUICK-LOC READY
**Quick release clips & low profile interior straps enhance knee comfort and usability.**

### LUXURY INTERIOR
**Antimicrobial Frame liners enhance comfort, reduce odour plus capture the interior straps and clips to anchor the brace to your leg, and stop brace migration during your ride.**

# K4 KNEE BRACE IMPACT MODIFIED UNBREAKABLE

## IMPACT MODIFIED FRAME
Impact Modified Lightweight Composite Frames anchor to the hinges for optimal load transfer away from the knee joint, without compromising feel for the bike.

## MULTI SPORT PROTECTION
The impact guards are easily removeable to convert the brace for multi-sport use.

## NEW HUMAN MOTION® HINGE
The new lower profile patented Hinge integrates shock-absorbing synthetic ligaments. These ligaments are engineered from Vectran Fibres that are 5 times stronger than steel, to provide progressive, multi directional motion control.

## QUICK-LOC & GO
Adjust the strap length the first time, then just Clip & Go.

## ADAPTIVE CUFFS
Integrated adaptive cuffs accommodate muscle motion and conform to various leg shapes, while reducing the risk of skeletal fractures.

## PICK A FLAVOR
Available in two unique colors; Gritty & understated Graphite/Black with a matte finish, or the refined metallic & gloss White/Black combination.

## THE BRACE FOR EVERYONE

**POD's new patented and medically certified K4 knee braces offer an affordable alternative to knee guards and are clinically proven to reduce the prevalence and severity of knee injuries.**

## KNEE SLEEVES

**KA221-001**

SIZES: XS/SM, MD/LG, XL/2X

- **Sold as a PAIR**
- Compression sleeves enhance comfort and support while reducing abrasion and fatigue
- Flatlock stitching for extra comfort
- Anti-Slip Silicon Grippers under the top and bottom band
- Moisture wicking fabric
- Extra long sleeves that fold over the brace to prevent slipping and cover Velcro straps – to avoid catching on pant liners.

## SAVE TIME & MONEY

### REBUILD OR SERVICE YOUR BRACE YOURSELF IN MINUTES

All technical equipment requires scheduled maintenance, and POD's simple modular design allows you to replace worn out liners & straps, rebuild the hinge system and replace damaged impact guards. That means you can buy the parts you need to service or rebuild your brace, at home or the track, saving you time and money.

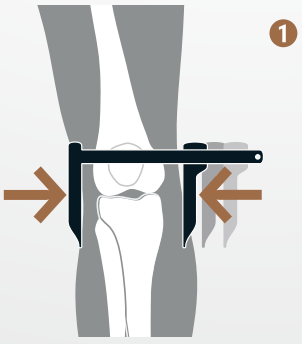
## 1. KNEE WIDTH

Measure across the centre of the knee using the POD Sizing Tool. Take measurements in a weight bearing position at full extension (i.e. with leg fully straight).



## 2. KNEE CIRCUMFERENCE

Measure knee directly underneath the kneecap using a soft tape measure or string. Take measurements in a weight bearing position at full extension (i.e. with leg fully straight).

### 3. TRY BRACE ON

Walk and bend your leg to aid the brace in settling. The brace should feel comfortably snug. If the measurements indicate you are between sizes, we recommend to go up a size.
