

Kriega®

2022 RANGE GUIDE

The world is slowly getting back on its feet after the difficulties of the last few years. The aftermath of the pandemic has created challenging conditions for everyone. Here at Kriega, we have been diligent in continuing to develop the best quality moto luggage we can and are pleased to be launching some new additions to the popular OS-BASE range with three bike-specific products (p48). PLUS an exciting new collaboration with iconic American brand ROLAND SANDS DESIGN with the launch of the ROAM collection (p28).

We have also been lucky to work with inspiring people like Kiwi hard enduro/ADV supremo Chris Birch and Pol Tarrés of the Trece Racing Society. Over the last few years, both riders have defined what is possible on large ADV bikes and, without doubt, tested their kit to the max. Pol and his tribe never say no to a challenge..... He has just taken the World Record for riding a twin-cylinder motorcycle to an altitude of 6157,5m, and later in the year, he hopes to go even higher.

Keep up to date with all the latest Kriega News on our social media channels
#RIDEKRIEGA

COMMITTED TO QUALITY

CORDURA®

We use Cordura® Brand fabrics throughout the Kriega range. Recognized for their long-lasting durability and resistance to abrasions, tears and scuffs.

YKK® ZIPS

Arguably the best zips in the world, renowned for their performance and durability, YKK® are the only high quality coil zips we use on our products.

AIRCRAFT GRADE

All Kriega metal engineered parts are made from 6061-T6 aircraft grade, hardened aluminium alloy providing dependable strength where it's needed.

HYPALON

Hypalon is a super strong, abrasion resistant synthetic rubber mainly utilized in products designed for extreme use such as white water rafts.

LINERS

Waterproof compartments have a light-weight taped-seam liner, easily removable for cleaning and white in colour to help locate kit inside the pack.

DRYPACK

The roll-top Drypack (dp) closure is a tried and tested waterproof solution for soft luggage, giving the rider confidence to carry in all weathers.

Kriega's goal from day one was to build a reputation for the best quality products on the market, offering the highest standards of functionality and craftsmanship.

Kriega packs are constructed from some of the most technical fabrics available today. Add to that a strict attention to detail in the design and production process and you can be sure that Kriega products will exceed expectations.

The whole Kriega range is built to perform without exception. As a commitment to quality, all packs are guaranteed for ten years against defects in materials and manufacture.

QUADLOC HARNES

Kriega's ground breaking Quadloc™ harness has set the standard for motorcycle backpacks for over 20 years.

The innovative design transfers weight from the shoulders to the chest and body, giving all-day riding comfort, even with heavy loads.

Ergonomically designed specifically for motorcycle riding to allow unrestricted arm movement.

Once size-set, simply click-in, click-out.

R35

The ultimate touring pack incorporating the unique zip-in QUADLOC™ harness, the ground breaking R35 enables a rider to carry bulky, heavy kit in long distance comfort.

35-litres (2100cu in) capacity
 1900g / 67oz
KRU35

R30

Waterproof protection for serious motorcycle adventure, the award-winning R30 gives a rider the confidence to safely carry a laptop/camera and other 'keep dry' kit even in torrential weather conditions.

30-litres (1800cu in) capacity
 1800g / 63oz
KRU30

R25

The 'go to' pack for the daily commuter and the weekend explorer the R25 is a solid performer that's built to last. The versatile large load area gives the flexibility to carry anything from a laptop to the weekly groceries and all in total riding comfort with the full size QUADLOC™ harness.

25-litres (1500cu in) capacity
1600g / 56oz

KRU25

MAX 28 EXPANDABLE BACKPACK

An Urban backpack constructed from ultra-durable Cordura® and Hypalon combined with the industry leading QUADLOC-LITE™ harness. The main zip-compartment expands from 22 to 28-litres, perfect for carrying a full-face helmet around town or loading up with those last minute groceries. With a waterproof roll-top electronics compartment (15"laptop), multiple organiser pockets for smaller items and hydration compatibility the MAX 28 has it all.

22-28-litres (1340 - 1700cu in) capacity
1850g / 65oz

KRU28

R22

The ultimate versatile mid-size pack offering 18-litres of waterproof storage in addition to a 4-litre quick access front pocket. Long-term durability comes from a 420D Cordura® and Nylon Ripstop construction, all built on Kriega's ground breaking Quadloc-Lite™ fully adjustable harness. The feature-rich R22 has the perfect mix of style and functionality, instantly recognisable as an iconic backpack by all-weather riders.

22-litres (1342cu in) capacity
1445g / 51oz

KRU22

R20

The R20 is the perfect fit for many riders around the world, 'not too big but big enough'. Whether you need to carry everyday essentials on your daily commute or tools, waterproofs and hydration for an off-road adventure, the R20 is the master of versatility and the king of super-tough and reliable backpacks.

20-litres (1200cu in) capacity
1200g / 42oz

KRU20

TRAIL 18 ADVENTURE BACKPACK

Composed of three sections: A heavy-duty zip access rear compartment which is a perfect storage area for a Tool-Roll or the 3.75-litre Hydration Reservoir. This area also has a small internal waterproof pocket for a phone and wallet, combined with the main roll-top body providing a total of 12-litres waterproof storage. The innovative Hypalon net also provides more external storage for wet gear.

18-litres (110cu in) capacity.
1630g / 57oz

BLACK- **KRUT18-B**
ORANGE- **KRUT18-O**
LIME- **KRUT18-L**

R16

A super tough, waterproof roll-top daypack with a streamlined, uncluttered design the R16 has a slim profile yet has the capacity for a 15" laptop and a change of clothing. In addition, an internal zip pocket offers separate dry storage for smaller items.

16-litres (976cu in) capacity
1346g / 47oz
KRU16

R15

With its lightweight and durable construction matched with short back length and non restrictive harness the R15 is the ideal off-road riding companion. Whether trail riding, desert racing or rallying add a hydration reservoir, spare kit, energy bars, a tool roll and you are all set for your next adventure.

15-litres (900cu in) capacity
1100g / 38oz
KRU15

TRAIL 9 ADVENTURE BACKPACK

The ultimate Dual-sport/trail backpack featuring ultra-durable Cordura® and hypalon construction combined with the industry leading QUADLOC-LITE™ harness. A waterproof roll-top 6-litre compartment and separate hydration zip-compartment combined with a unique hypalon external net provides versatile storage options.

9-litres (550cu in) capacity.
1030g / 36oz

SIDEBURN

LIMITED EDITION

T18 BACKPACK

The supremely functional T18 is given a design twist in collaboration with the team at Sideburn magazine. The unique flat track tyre tread pattern of the Hypalon net and highly reflective side panels set this limited edition backpack apart, but it retains all the features that make the T18 a 'best in class product'. It has the same dependable mix of 12-litres of roll-top waterproof storage, combined with a rear compartment, that is designed to hold a 3.75-litre hydration reservoir, tools or more.

US-DRYPACKS

Universal fit to any type of motorcycle.

Easy to mount with quick-release hooks attaching to web loops secured to the bike's subframe.

Use individually or hooked together in various combinations to form a modular luggage system.

Mount as a Tank Bag, with the addition of a Kriega TANK CONVERTER (page 40)

Convenient to carry off the bike with a removable shoulder strap (US-20 / US-30 / US-40) or by hooking onto any Kriega backpack (US-5 / US-10)

US-40 RACKPACK

The US-40 Rackpack is a double-ended roll-top version with waterproof storage capacity from 28 to 40-litres. Long hook straps give two mounting options, either directly to a rear rack or using the subframe loops included mount on a pillion seat. The modular design enables you to hook on additional US-Drypacks or accessories like the OS-BOTTLE (see page 53)

Other features include:

A separate tent pole compartment.

Heavy-duty roll-top shields.

An adjustable shoulder strap for carrying off the bike.

Universal fit any type of bike

40-litres (2440cu in) maximum capacity
205(h) x 650(w) x 300(d) mm
8"(h) x 25.5"(w) x 11.8"(d)

ADVENTURE BIKE LUGGAGE

OVERLANDER-S

Whether you are a weekend single track rider or 'round the world' tourer, we believe soft luggage systems are the only durable and safe way to travel on a bike.

The **KRIEGA OVERLANDER-S (OS)** is a versatile multi-pack solution with numerous fitting options which enable you to choose the configuration to suit your bike and type of riding.

Multi-pack storage from 6 to 100-litres + All OS-PACKS are fully waterproof and constructed from ultra-abrasion resistant Hypalon and 1000D Cordura® to deal with the toughest of adventures.

OS-32

OS-22

OS-PANNIERS

The OS-32 and OS-22 are at the core of the OS range and share many of the features of traditional ADV hard luggage with the added benefits of durability and safety for riding in demanding environments where there will be the inevitable scrape with the terrain.

- The waterproof roll-top closure and removable white liner ensure pack contents remain protected from the elements.
- Mounting and dismounting the OS-Panniers takes less than a minute with two quick release straps and buckles.
- The same straps compress the pack firmly in position. No extra tie-down straps are required.
- Constructed from the highest quality materials including ultra-abrasion resistant Hypalon + 1000D Cordura®, with military grade Kevlar® webbing and aircraft grade alloy buckles.
- Offering three easy fit options:
 1. The traditional 'over the seat' saddlebag format using OS-STRAPS (page 59)
 2. As a single pannier by hooking-on to a specially designed OS-PLATFORM. (page 48)
 3. Mounting directly to a **Outback Motortek X-Frames** available from outbackmotortek.com

OS-32 and OS-22 Soft Panniers require pannier frames to be fitted to the bike. These are model specific, available as accessories from bike manufacturers or other after market suppliers.

OS-ADVENTURE PACKS

Specifically designed for riding in the most demanding of environments. Use as single stand alone pack or as a multi-pack storage system with the addition of other packs in the OS range.

OVERLANDER-S

SADDLEBAGS

Available in either SOLO or DUO options, designed to universally-fit* modern retro-styled bikes.

Totally waterproof and constructed from super-tough abrasion resistant Hypalon & 1000D Cordura®.

A roll-top closure ensures total weather protection and the white liner makes it easy to find your kit and is removable for cleaning. Aircraft grade anodized alloy strap connectors and heavy-duty cam buckles hold the bags firmly in position. Mounting straps are included for single or double bag set-up, plus an adjustable shoulder strap for use off the bike.

*Requires saddlebag supports fitting to the bike.

Not included.
